

## **Biography**

Prof. David A. Stone graduated from the University of Sheffield in 1985 with a 1st Class degree in Electronic Engineering, and from the University of Liverpool (UK) in 1989 with a PhD. He started working in the Electrical Machines and Drives (EMD) group at the University of Sheffield in 1989 specialising in power electronic energy conversion and energy storage. He is now Professor of Electrical Engineering in the EMD group, and leads the Centre for Research into Electrical Energy Storage and Applications (CREESA) at the University of Sheffield, involved with static and mobile energy storage and applications. He is a fellow of the IET.
